In 2015, Jeon Ki-young held a seminar on the technique of Nage-waza (throw technique). A high class OF athlete allows him to demonstrate all the technical actions with an excellent assessment. At the seminar he told about:

- throw over the back - morote-seoi-nage;  
reverse throw over the shoulder - ippon-seoi-nage (option);  
picking up inside - uchi-mata;  
front step - tai-otoshi;  
throw across the back with the capture of two arms - sode-tsuricomi-goshi.

All technical actions are detailed and demonstrated by the master. The ease of execution, focusing on important details, stopping at important moments makes it possible to easily learn the technique shown. You can see the best school of Korean judo. The film is intended for athletes, coaches and amateurs of judo.
